

Press Release – Oct 22, 2014

CHANCES CAMPBELL RIVER

Early this morning the Union commenced job action by rotating strike despite having a fair and generous offer from the Company. Unfortunately, this job action makes it very difficult for us to operate our business and meet our guest's expectations while also meeting our regulatory requirements. By choosing this course of action the Union has forced us into a lockout.

We are committed to providing our guests with exceptional gaming service and our doors will remain open to our guests during this difficult time. We will be providing additional security at any picket lines and our hours of operation have been slightly modified. Please contact 250-286-1442 (press 1) for our hours of operation for the duration of the lockout. We thank all of our loyal guests in advance for their continued support and hope to resolve this situation shortly.
